“ I was married fifty four years my family and friends loved to go camping and enjoyed outdoor activities. We have so many good memories of those days together. He was always there for his children.

Love you 🤗

“ I have several memories of my dad. However, the hours he spent with me in our back yard throwing a softball stand out the most right now. He was a night nurse, yet he found the energy to expend with me outside on those hot days. He could really laugh and when he did (nearly coughing and in tears) it was infectious. We talked a lot. We had a lot of similar interests. Dementia took that from me before his body gave away. We have been grieving his loss for a while now. Pops I love you. I've been missing you for a while. We are going to be ok. ❤️🙏
